Sir:

This paper is a response to the Office Action mailed on July 6, 2005.

In that action, the Examiner states that the present application contains six species:

<u>SPECIES</u>	<b>FIGURES</b>
1	1-8
2	9-10
<b>3</b> .	11-13
4	14
5	15
6	16

The Examiner requires election of a single species and a listing of all claims readable on that species.

**ATTORNEY DOCKET NO. 3532** 

The applicants respectfully traverse the Examiner's requirement and asserts that

the subject matter of the six (6) alleged species is interrelated such that a complete

search for full and proper consideration of patentability would be substantially, if not

completely, overlapping.

Should the Examiner maintain the requirements, the applicants elect the first

alleged species (figures 1-8) and submit that at least claims 1-14 and 16-25 read on this

species. Also, the applicants submit that claims 1, 2, 5, 12, 13 and 25 are generic.

Finally, the applicants request reconsideration and allowance of the pending

claims of this application.

Respectfully submitted,

Vasilios D. Dossas Reg. No. 30,745
